AT the Soldiers' and Sallors' Institute at Kowloon last night Major Barrow of "Our Very Own" regiment gave a very interesting account of the constitution of his corps, interlasded with amusing anecdotes of his experiences with what he termed "the simple-minded Pathan."

"How do women keep so cool when men suffer torture in these oppressively hot days ?" asked a man of a woman who looked as cool and fresh as a bunch of white flowers newly sprinkled with. dew and resting on a ted of moss. "We don't," said the frank woman. "We just pretend to." There is a whole sermon for you.

THE Daily Press coolio has been burgled According to this morning's issue "the burglar knows his opportunity, and took it yesterday on the premises of a Chinese member of our staff taking therefrom money and clothing to the value of about \$70." What we want to know, and what the police ought to find out, is-whose was the money and clothing?

The Gambriaus, the organ of the brewed in 1890 was 1,956,000,000 hectoliters, or 92.831,000,000 gallons; whereas in 1889 it was only 1,736,000,000, Great Britain and Ireland held the preëminence with 567,000,000 gallons; the German . Empire followed next with 532,000,000 hectoliters.

THE Spanish consul has received a telegram stating that there is a typhoon south cast of Luzon. Simultaneously Dr. Doberck informs us that the barometer is going down, gradients slight for S. E. winds, which is, being interprete that the depression comes from the S.E., but not yet near.

THE rush to the North Formosan gold-fields over, and the diggers are returning in scores This is said to be owing to the great mortality amongst the miners and the massacre of many of them by the savages, although "braves" are supposed to be stationed on the fields to protect the immigrants.

THE late shroff of the Telephone Company, charged with embessing \$75, was before Mr. Hastings this morning, on remand. After some further evidence respecting the amounts made away with, and the number of years he hadserved on \$10 per month, the case was further adjourned till Friday next, the 1st proximo.

For blasting rock at Yau-ma-ti, without taking the necessary precautions against lajuring passers, one of Chan Aking's satellites was fined \$5 this morning, the magistrate remarking that the fine would have been much heavier had it not been shown that it was almost impossible to "shield" the site owing to its inaccessibility.

On every horse will be found, on the inside of each fore-leg, a dry gray wart about the size of a silver dollar, apparently of no possible use. When the weary, overtaxed animal, sweating at every pore and covered with foam, can reach down and rub with his wet nose this always dry, hard substance, he is instantly refreshed with an odour like geranium. Now, "Brownie!"

LAST NIGHT an Indian watchman in the employ of the Aberdeen Dock authorities got into "scrap" with the Chinese crew, of the coasting steamer Pekin. CORRESPONDENT, residing in the genteel neighbourhood of Francis Street, informs us that a snake measuring nearly six feet in length was caught in the Naval Yard a day or two ago. The reptile was discovered by a constable comfortably colled up near the flag staff, and he immediately called to his assistance a smart young Marine belonging to H.M.S. Victor Emanuel. who was on police duty and keeping his weather eye right on the Chinese deposit bank opposite the Commissariat jetty, which by the way can boast of more depositors daily than all the banking establishments in Hongkong put together. The snake at first seemed (continues our correspondent) to regard the Marine with as much indifference and scorn as the people of Chatham are known to treat the Royal Marines, but a boat hook having been procured put a different aspect to the affair, and after a severe encounter the snake gave up the ghost. It was proposed at first to send it to the forthcoming World's Fair at Chicago; but upon mature consideration this proposal was knocked on the head, as it was thought that if nothing but dead snakes could be sent for exhibition it would be showing up this busted colony a little too much. Eventually the snake was skinned and dissected by the marine aforesaid, and carcase, which would have taken immensely at a stewed cel stall in Petticost Lane, was sent as a cumshaw, it is said, to a lady friend in Cochrane

For a while the fight was kept up with great spirit by both sides and it was not long before it became apparent that unicas extreme measures were resorted to the Heln effice would be in the hands of the now furtous mob. The order was therefore given to the runners to fire, and fire they dld, killing two shopkerpers and seriously, wounding three others. After this the mob choled down, but were, nevertheless, fully determined to carry on the struggle for fairplay. They therefore convened a meeting of Leadmen, who drew up a long petition to his Excellency the Vicercy in which the conduct of the Namboi and Fatshan mandarins and the Hills magnates was severely criticised. . In olden times the people would have waited peacefully, for the reply of the ta-fee, but times have thenged and so have the people of China, who no longer regard their officials as an many gods; so they didn't quieted down in the usual way but were known to the authorities to be planning to attack, loot and butcher the inmates of all the yamens in the district by the aid of levies from Namboi and the city (Canton) proper. This course was determined on owing to the murder of the two above mentioned citizens and the failure of the Viceroy to grant with sufficient promptness the prayer of his humble perimoners. . THE "TWEED" UNDER ORDERS.

Yesterday the strike was kept up and the situation looked very grave up to noon, when the British Acting Consul-General at Canton communicated with the Hongkong Government and obtained a promise that the Tweed would be sent up to Canton at day-break to-day. Orders were soon received at the Naval Yard to prepare the Tweed, then lying off the bathhouse, for sea and in the space of an hour or so she was ready for businers, while the stokers below were firing up for all they were worth. At sundown the Commander of the Tweed received orders to start for Canton at A o'clock this morning, but during the night, owing to more fivourable news coming to hand from the BHtish Consul at Canton, the departure of the Trueed was countermanded, and she is now "an you was " in the harbenr, though prepared, we undersland, to leave (for any part of the whole world) at a moment's notice and to give an

excellest account of herself. Latest news is to the effect that Fatshan is crowded with Imperial troops and that the Viceror has been prevailed on by the Consular Budy resident at the Shameen to adopt a concilintary tone in his heply to the Fatshan petition. It is, therefore, reasonable to conclude that the strike is fairly over, that the unscrupulous officials concerned will have to ante-up to the Viceroy's underlings a good deal of their illgottes gains and that our own dear old Tweed will be allowed to lay off in Hongkong for a few more years, possibly until the millennium.

#### GREAT TRUTHS.

Great truths are very simple truths when finally they are comprehended; but it takes a long while to prepare any mind to comprehend a great truth. For years one may grope in darkness concerning some phase of his spiritual life, or some perplexities of a sacred friendship, or some scenning contradictions in his innormost personal character; when suddenly a light will break in upon the mind, or upon the heart, which instantly makes clear that which before seemed hopelessly dark. A great truth is then perceived in its bearings upon, and so in-its explanations of, all that was bewildering and disheartening to one who was in ignorance of that truth. What a new sense of life and hope comes with such a new recognition of a comforting or of an enlightening great truth! In the joy of an experience like this, one can wait and trust in other, perplexities which may yet be similarly resolved and dissipated. Thus it is that on the introduction of Clements Tenic everybody was sceptical of its merits; yet now so popular has it become, and so reliable has it proved itself, that hundreds of bogus medicines wro placed on the market with which to guil the public. Every genuine article is always imitated, and people will always try to impose on the credulity of their suffering fellow men. Patients must be on their guard against these swindlers, for their remedies are perfectly usaless, and while time is being wasted the disease increases, and perhaps even beyond the power of so potent a remedy as Clements Tonic. Mrs. Brand, of 33 Australia-street, Newtown, Sydney, writes: "I think it my duty to write in grateful acknowledgement of the great benefit my mother has derived by the use of Clements Tonic. . My mother was seriously ill from inability to eat and general debility; and in fact her condition caused us great anxiety; we had a greatrepugnance to using patent medicines, but the numerous cures we heard had been effected by Clements Tonic, and which was corroborated by our personal friends, induced my mother to try one bottle. The effect of this one bottle was marvellous; her appetite has returned, and her health wonderfully improved. We never thought it possible that so great an improvement could have been effected in so short a time. You may make what use of this .you like, as we are sure there must be many sufferers who, like my mother, would derive immense benefit by the use of Clements Tonic. I.am, yours gratefully, Evelyn Brand." Care must be taken that the genuine "Clements" Tonic is obtained, as the use of imitations must lead to disappointment and
